WARMADEWA UNIVERSITY

ECONOMY AND BUSINESS OF ASEAN

WIP33M01

International Program
ECONOMY AND BUSINESS OF ASEAN

5 ECTS

COURSE DESCRIPTION
The course examines the economic development and the current structure of the East Asian economy, and the emergence of regional economic interaction and institutions. Over the last few decades, the region has become the most vibrant in the world in terms of economic growth. This regional economic experience provides a means to reinforce the many topics presented this course. The experience of these countries also provides interesting challenges for some of the usual assumptions about how the economy corporations should be organized and regulated in order to succeed.

Additionally, the evolution of regional policy dialogue, through the ASEAN + 3 meeting and the proliferation of bilateral and sub-regional free trade agreements, provides an opportunity to examine the key issues relating to the exchange rate policy, regional trade preferences, and the coordination of macroeconomic policies.

OBJECTIVES
By the end of this course, students should be able:

- To describe when, why, and how these economies began the process of economic development.
- To explain why have many of them been so successful at growing and industrializing.
- To understand how these economies, operate today.
- To comprehend how the government interacts with the economy.
- To understand how firms behave (including both internal governance/structure/behavior and competition in the marketplace).
- To identify what issues and problems will confront these countries in the future.
LECTURING METHOD
The course will be presented in the form of lecture activities, classroom assignment and discussion, case studies, special topic presentation, and home work. Students will be working primarily from the textbook; though additional materials will be assigned from time to time. To understand the material covered in this course, it is crucial that students read the material before class session to be able to contribute thoughtfully to the class discussions and exercises.

ASSESSMENT METHOD
Class attendance 10 %,
Class participation and assignments 30 %,
Mid-term exam 30 %
Final exam 30 %

LECTURERS
Dr. Ketut Arnaya, S.E., M.M.
Dr. Ni Luh Putu Indiani, S.E., M.M.
Ni Kd Sioaji Yamayanti, S.E., MBA
